

# Are you a person living with dementia or a care partner?

We are looking for individuals who have experience with care provided by specialized geriatric services to participate in a research study exploring perspectives on decision-making and goal-setting.

## Who can participate in this research study?

Adult (18 and older) who:

- has a diagnosis of a dementia or who is a care partner to a person with dementia;
- have had experience with care provided by [specialized geriatric services](#) in the province of Ontario;
- capable of participating in an interview in English.

## If I participate, what will I be asked to do?

- Participate in an interview by phone or videoconference with a member of the research team about your experiences.
- Answer some demographic questions age, gender, relationship to a person with dementia/care partner, years of experience providing support, dementia type, setting the individual with dementia lives in, type(s) of specialized geriatric services you have experience with.
- Interviews will be 30 to 45 minutes and will take place at a time that is convenient for you.
