¹ Multiple large-scale evaluations conducted at various stages of program maturity to guide decisions regarding service design, funding, expansion and/or evolution.

² All local OHTs supported with subject-matter and technical expertise (population health management, evaluation, performance measurement, etc.).

³ Geriatric assessments & interventions for vulnerably housed older adults with memory concerns.

⁴ AFP contributes towards enhancing access to the Care of the Elderly Physician care.

⁵ Guidelines build on the previous resources developed by Seniors Care Network and Central East ADPs. Revisions were made in collaboration with leadership from Champlain and South East
